

Setup Your DimTek Account

Instructions for both Android and Apple users.

To set up your DimTek Account download the DimTek App to your smartphone.
For Android users go to Google Play Store to download the App.
For iPhone users go to Apple App Store to download the App.

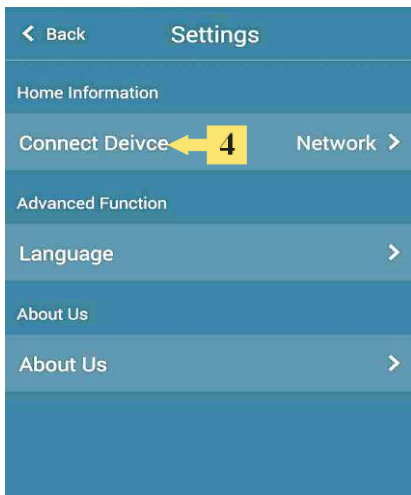

1 Press **INSTALL** to download Dim Tek App to your smartphone.

2 Allow DimTek App to access your smartphone by pressing the **ACCEPT** button.

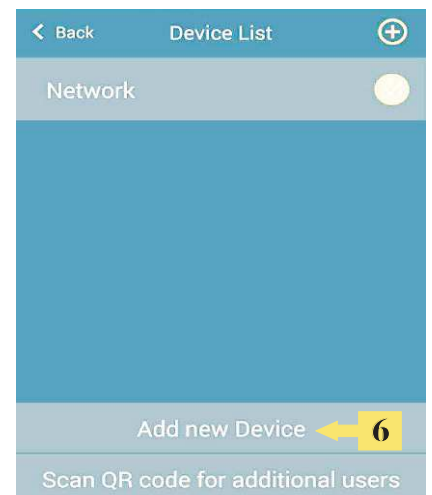

3 Press the **MENU** button on the upper left hand corner of the page.

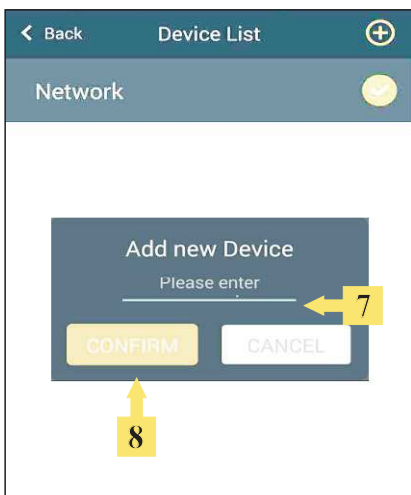

4 Select **Connect Device**.

5 Press the '+' button located on the upper right hand corner of the page.

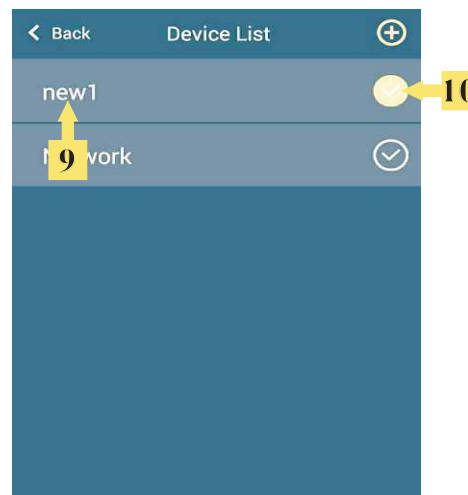

6 Press **Add New Device**.

7 Enter your device name by typing one to 10 alphanumerical characters.

8 Press **CONFIRM** to finish.

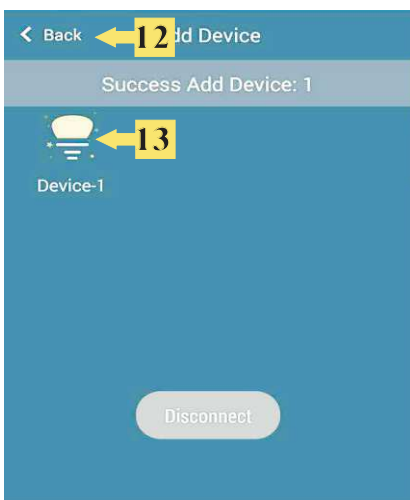

9 Your device name will appear in the evice List page. (Currently showing "new1")

10 Press and drag the 'Check' button and to the left.

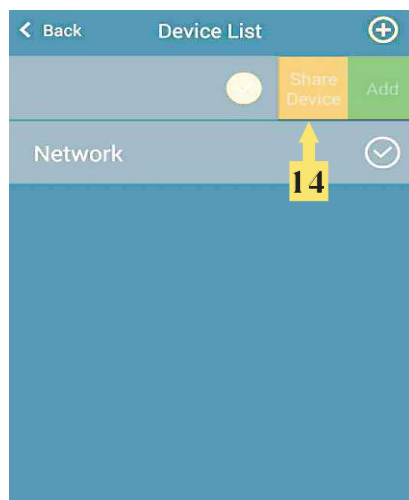

11 Choose and press the **ADD** button. You have successfully set up your device name and account.

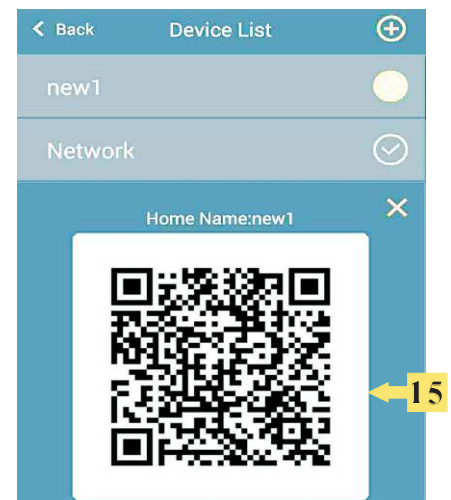

12 To add a user to share your DimTek account press the 'Back' button located on the upper left corner of the page.

13 Press 'Device 1' button.

14 Press the 'Share Device' button.

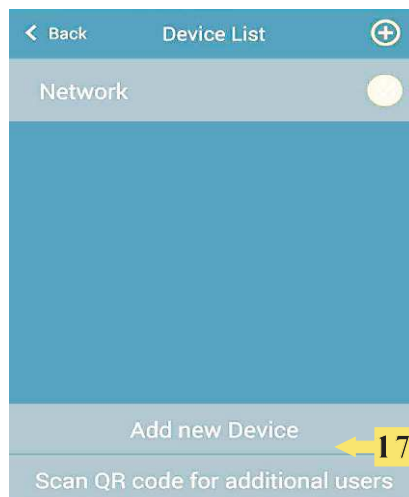

15 The QR Code will appear. Leave the QR Code page open for use to connect and register your secondary users.

To register and connect the smart phone of a secondary user the secondary user is required to do the following:

16 On the smart phone of the secondary user press the '+' button located on the upper right corner of the page.

17 The secondary user can choose to add their smart phone manually or by scanning the QR Code displayed on the host smart phone

Choose and press either Add New Device or Scan QR Code for Additional Users.

If you chose to scan the QR Code proceed to Step 16.

If you chose to add your smart phone manually return to Steps 5 to 9.

18 If you choose to add your smart phone by scanning the QR Code: Position the QR Code displayed on the host smart phone so that it appears on your scanner window.

19 When your QR Code scanner successfully reads the QR Code the device name will appear on the Device List.

To finish adding your smartphone as a secondary user repeat Steps 10 and 11.

You can now share and enjoy DimTek and its features.
